~~CSS Pocket Reference: Visual Presentation for the Web 4 ...~~

The CSS Pocket Reference has what I wanted in a concise format. However, it also has some errors. Page 10, paragraph 3 misspelled "however" as "howerver". The reference information in Chapter 4, page 171 for "table-layout" gives 2 incorrect examples that say "table-display". So far as I can tell there is no such CSS property as "table-display".
